95 <sup>th</sup> (near worst)	11	9	20	13	30	17	22	26	17	12

\* Percentiles for HCAHPS "Top-box" and "Bottom-box" scores of the 3,827 hospitals publicly reported on Hospital Compare in October 2011. Surveys are from patients discharged between January 2010 and December 2010. Scores have been adjusted for survey mode and patient-mix.

<sup>1</sup> The "**Top-box**" is the most positive response to HCAHPS survey items. Percentiles indicate how often patients gave positive assessments of their hospital experience. *With "Top-box" scores, the higher, the better.* For example, on "Communication with Nurses," 5% of hospitals scored 86 or higher (95th percentile) in the "Top-box," while 5% scored 66 or lower (5th percentile). The median (50th percentile) score on this measure was 76.

<sup>2</sup> The "**Bottom-box**" summarizes the least positive responses to HCAHPS survey items. Percentiles indicate how often patients gave negative assessments of their hospital experience. *With "Bottom-box" scores, the lower, the better.* For example, on "Communication with Nurses," 5% of hospitals scored 2 or lower (5th percentile) in the "Bottom-box," while 5% scored 11 or higher (95th percentile). The median (50th percentile) score on this measure was 5.
