*Patient-level Pearson correlations of rescaled linear means of HCAHPS measures, for patients discharged between July 2023 and June 2024 (2.2 million completed surveys).

Note: All correlations are significant at $p < 0.001$.

*These results encompass all hospitals that received HCAHPS scores. Because not all hospitals report their results on Care Compare, the values on that Web site may differ from those shown here.
