75 th	6	5	12	8	22	11	13	17	10	6
90 th	8	7	15	10	25	14	17	20	13	9
95 th (near worst)	9	8	18	12	27	16	20	22	15	11

* Percentiles for HCAHPS "Top-box" and "Bottom-box" scores of the 3,975 hospitals publicly reported on Hospital Compare in April 2014. Surveys are from patients discharged between July 2012 and June 2013. Scores have been adjusted for survey mode and patient-mix.

¹ The "**Top-box**" is the most positive response to HCAHPS survey items. Percentiles indicate how often patients gave positive assessments of their hospital experience. *With "Top-box" scores, the higher, the better.* For example, on "Communication with Nurses," 5% of hospitals scored 88 or higher (95th percentile) in the "Top-box," while 5% scored 70 or lower (5th percentile). The median (50th percentile) score on this measure was 79.

² The "**Bottom-box**" summarizes the least positive responses to HCAHPS survey items. Percentiles indicate how often patients gave negative assessments of their hospital experience. *With "Bottom-box" scores, the lower, the better.* For example, on "Communication with Nurses," 5% of hospitals scored 1 or lower (5th percentile) in the "Bottom-box," while 5% scored 9 or higher (95th percentile). The median (50th percentile) score on this measure was 4.
