*These results encompass all hospitals that publicly reported HCAHPS scores. Because not all hospitals report their results on Care Compare, the values on that website may differ from those shown here.
Hospitals must have a minimum of 25 completed surveys in a four-quarter period for their HCAHPS results to be publicly reported.

April 2026

* Average "top box" score for participating, publicly reported hospitals in this state. See HCAHPS results on www.Medicare.gov/care-compare/ for full details.

** Response rate is calculated for hospitals in each state, and in the nation.

Beginning with January 2026 public reporting, HCAHPS scores based on fewer than 25 completed surveys are not included in national and state average calculations. However, the Public Reporting Preview Report, which a hospital can access during the preview period, will continue to include HCAHPS scores and number of completed surveys for all participating hospitals
